REDMOND 18% LICK

ALL NATURAL PROTEIN

for all classes of beef and dairy cattle

Ingredients: Molasses Products, Hydrated Sodium Calcium Alluminosilicate, Processed Grain By-Products, Salt, Vegetable Oil, Dicalcium Phosphate, Monocalcium Phosphate, Plant Protein Products, Magnesium Oxide, Vitamin A Supplement, Zinc Proteinate, Zinc Sulfate, Manganese Sulfate, Manganese Proteinate, Copper Sulfate, Copper Proteinate, Vitamin E Supplement, Yeast Culture, Sodium Selenite, Vitamin D Supplement, Cobalt Sulfate, Ethylenediamine Dihydroiodide (EDDI).

Feeding Recommendations: Provide as a free choice supplement to cattle on pasture or in dry lot at a rate of one tub per each 20 to 25 head. Place tub near areas frequented by livestock, such as watering locations, shade or loafing areas. Livestock typically should consume 1/2 to 3/4 lb per head per day based on a 1000# animal. Consumption may vary with the condition of the livestock, grazing conditions, availability of other feeds and climate. Consumption may be controlled somewhat by the distance the tub is placed from the water source. Tubs near water source are typically consumed at a faster rate than tubs further away. Always provide free access to clean fresh water and free choice salt. This product is intended only as a supplement to the overall ration. Cattle must be provided with adequate forage and/or hay. Do not feed to sheep.

Net Wt. 200 LBS
